PROFESSIONAL SUMMARY

Full Stack Engineer with 5+ years of experience in building scalable SaaS, HR, and e-commerce platforms using React, Next.js, Node.js, and Ruby on Rails. Skilled in frontend architecture, backend development, and DevOps automation. Adept at designing maintainable codebases, mentoring teams, and driving projects in cross-functional, multicultural environments. Passionate about clean architecture, product performance, and modern web technologies.

CAREER OBJECTIVE

To leverage my expertise in React, Next.js, Node.js, and cloud-native development to engineer performant, scalable solutions and contribute to innovative products in a collaborative, growth-focused organization.

WORK EXPERIENCE

Full Stack Engineer — Xincere Inc.

Tokyo, Japan | Jan 2024 – Present

- Engineered and deployed multiple SaaS platforms, including an internal HR system and an e-commerce application using React, Next.js, Node.js, and Ruby on Rails.
- Collaborated within a cross-functional team of 15+ engineers to improve delivery speed by 20% and enhance product scalability.
- Developed and maintained Naminori, an engineer job & learning platform enabling job seekers to explore technical roles and courses.
- Improved frontend performance through server-side rendering (SSR), code splitting, and optimized API responses.

Full Stack Engineer & Team Leader — EagleOrbit IT Solutions

Kosovo | Feb 2023 – Jan 2024

- Led a 5-member development team in redeveloping Priandori.com using Next.js and Apollo Federation, transforming it into a scalable and modular web platform.
- Designed and implemented microservices architecture, enabling maintainable and high-performance APIs.
- Enhanced user experience with dynamic routing, SSR, and responsive UI, achieving a 35% faster load time and improved SEO ranking.
- Mentored junior developers, conducted code reviews, and established team-wide best practices.

Full Stack Web Developer — Freelancer & Upwork

Remote | 2020 – Present

- Delivered 15+ full-stack projects for global clients (US, EU, and Asia), including SaaS dashboards, e-commerce systems, and learning platforms.
- Developed high-performance frontends with React, Next.js, and Vue, and backends using Node.js, Express, NestJS, and PostgreSQL.
- Maintained consistent 5-star client ratings for timely delivery, code quality, and scalability.
- Integrated CI/CD pipelines, Dockerized environments, and cloud deployments (AWS, Vercel, Netlify).

TECHNICAL SKILLS

Front-End: React.js, Next.js, Vue.js, TypeScript, Redux Toolkit, JavaScript (ES6+), HTML5, CSS3, SASS, TailwindCSS, Bootstrap, Material UI, Styled Components, Framer Motion, Storybook, Vite, ejs, PugJS

Back-End: Node.js, Express.js, NestJS, GraphQL, REST API, WebSocket, WebRTC, Redis, MongoDB, PostgreSQL, MySQL, Prisma ORM, TypeORM, Firebase, AWS Lambda, Nginx, Apache, Ruby on Rails, NextAuth, OAuth, Microservices

DevOps & Tools: Docker, Git & GitHub, GitLab CI/CD, Jenkins, AWS (EC2, S3, CloudFront), Vercel, Netlify, Heroku, Linux & Windows Server Management

Testing & Quality: Jest, Mocha, Chai, Cypress, Playwright, Postman, ESLint, Prettier

Design & Collaboration: Figma, Adobe XD, Photoshop, Jira, Trello, Notion, Slack

Familiar / Learning: Go, Rust, Python (FastAPI, Flask), PHP (Laravel), WordPress, Web3.js, Blockchain fundamentals

EDUCATION

Bachelor of Arts (Honors) in English

Bangladesh National University | In Progress, Expected 2026

LANGUAGES

- English:** Fluent
- Bengali:** Native
- Japanese:** Learning (preparing for JLPT N4/N3)

KEY STRENGTHS

- Strong understanding of scalable system design and microservices architecture
- Experienced in Agile / Scrum development and team leadership
- Passionate about continuous learning and mentoring junior engineers
- Proven record of delivering clean, maintainable, production-ready code
